FREQUENTLY ASKED QUESTIONS

What is Collagen Elixir™?

Collagen Elixir is soon to be the newest step in your beauty routine. It's made using Marine Collagen peptides, biotin, vitamin C, zinc, and other ancient botanicals to support healthy skin from the inside out*. All that's left for you to do is sip and enjoy!

*Biotin contributes to the maintenance of normal hair and skin. Vitamin C contributes to normal collagen formation for the normal function of skin. Zinc contributes to the maintenance of normal hair, nails and skin

What are the benefits of type 1 collagen?

There are many types of collagen. Type I collagen is the building block of our skin's structure, making up around 80% of our skin's dermal layer. Our bodies produce collagen naturally, but its production begins to decrease as we age. Research has shown collagen supplementation can be beneficial for maintaining healthy and hydrated skin. Marine Collagen is composed mostly of type I collagen and is rich in unique, specialised amino acids that have targeted benefits for skin health and support the body's natural production of collagen.

Where is Marine Collagen sourced from?

The Marine Collagen in Collagen Elixir is sourced from wild-caught, cold water fish from waters off the coast of Norway following strict, environmentally friendly practices.

Is Collagen Elixir packaging recyclable?

Yes, our Collagen Elixir packaging is 100% recyclable. Please dispose of the glass bottle and box responsibly.

Who is Collagen Elixir suitable for?

Collagen Elixir is suitable for adults ages 18 and up. While Collagen Elixir contains food-based ingredients that may be suitable for pregnant or breastfeeding women, it's always best to consult with your doctor before using any food supplements.

Can I take Collagen Elixir if I'm allergic to fish?

No, Collagen Elixir is not suitable for individuals with fish allergies.

How many servings should I take per day?

We recommend enjoying one serving of Collagen Elixir each day.

When is the best time to take Collagen Elixir?

The best time to consume Collagen Elixir is daily! Any time, any place - as long as you consume one full serving of Collagen Elixir each day you will continue to reap the benefits.

Can I drink Collagen Elixir on a Cleanse Day?

Yes, Collagen Elixir can be consumed on Cleanse Days and has a value of 2 Cleanse Credits per serving when using the Cleanse Day Tracker. Please refer to our Cleanse Day Tracker for more information on Cleanse Day approved snack options.

What are the different types of Collagen and what do they do?

There are at least 16 types of collagen known, but most of the body is comprised of four main types: type I, II, III and IV. Type I, the Collagen we use for Elixir, is the most predominant collagen in the body, mostly used for beauty products, as it's the major structural component in skin, bone, tendons, connective tissues, and fibrous cartilage. Type II is mainly found in the elastic cartilage that serves as cushioning for joints. Type III serves as a supportive structure for organs, arteries, and muscles. Type III is found in the skin layers and helps with filtration.
